Old (Non-EPA) Wood Heating System Disabled/Recycled by:

- The Retailer or Homeowner must render the old appliance permanently non-usable by removing the doors, removing the firebrick, bludgeoning door hinges and flue collar of appliance to disable flue connection and door attachment.
- OR/ Cutting the old appliance up into strips with a cutting torch
- OR/ Crushing the appliance with heavy equipment (loader, D9 Cat, etc.)
- OR/ Other: _____

Destruction of appliance must be confirmed by photograph showing identifying marks and/or showing how the unit was rendered inoperative.

Destruction of appliance must be confirmed by photograph showing identifying marks and/or showing how the unit was rendered permanently inoperative.

After rendering the old appliance non-usable by steps listed above, stamp the last 6 digits of the serial number of the new appliance on top of the old appliance near the front of the flue collar.

Deliver the appliance to a local recycler. Get a receipt from the recycler **making sure the serial numbers that were stamped on top of the appliance are on the receipt** and then forward a copy of the receipt to your distributor to process your Retailers' Credit.

The accurate and truthful completion of this form and my signature below are my commitment and promise to render these trade-in stoves unusable and appropriately recycled.
